One set was taken 1/17. I am thinking those must be the photos you obtained. A lot of waste in 275-gallon caged totes. The wastewater treatment room late in the de-mob process. Canister resin filters (they look like commercial compressed gas tanks), many pulled from machines, in process for supplier pickup.

I just referred the original operator, SoloPower, to DEQ OCE for formal enforcement. See attached. You have my EB assessment.

Jay

Jay,
The day I swung by and got the inspection photos from you (January 25), do you remember the date those photos were taken? Were they from the January 17th inspection? Ex. 6 PP / Ex. 7(C)
